## **FOREWORD**

This report presents a complete listing of proposed capital improvements for Fiscal Year 1976, those projected by Departments for five years through 1980 and those authorized by the General Assembly since 1961. It also includes a compilation of all enacted bond bills since 1961, population charts for State institutions and provides information pertaining to the legal requirements associated with the Capital Improvements Program. Details of the capital budget are contained in the "Capital and Operating Budget, Fiscal Year 1976."

If information is desired on capital improvement projects authorized prior to 1961, reference should be made to Department of State Planning Publication No. 158 entitled "Capital Improvements Authorized by General Assembly 1955 through 1969" dated October 1969.

## PART I

### 1976 FISCAL YEAR CAPITAL BUDGET, IN BRIEF, INCLUDING DEPARTMENTAL PROJECTIONS OF CAPITAL NEEDS FOR FIVE-YEAR PERIOD 1976-1980 AND RELATED STATE OF MARYLAND BONDED INDEBTEDNESS

#### General Considerations and Fiscal Summary

The Department of State Planning, under its basic legislative authority, serves as one of the Governor's principal staff agencies, and is assigned primarily two major capital improvements budget responsibilities. They are: (1) Preparation of the Governor's annual capital budget, and (2) compilation of a proposed five-year capital improvements program for the State.

The Department of State Planning is required to analyze, evaluate, recommend and schedule for inclusion in the capital budget those projects of greatest urgency and importance operationally, from hundreds submitted, to ensure that the State's physical plant facilities keep pace with program needs and the demands of an ever increasing population. Such projects are carefully related to an integrated five-year development program. The program classifies projects in accordance with needs and recommends a time sequence for their construction. Also contained therein is the estimated cost of each project and an indication as to the potential impact on operations and maintenance. In preparing the program, the Department of State Planning consults with the Department of General Services and has the collaboration of the Department of Budget and Fiscal Planning.

For the first time, fiscal year 1976, the detailed capital budget information will be published as an integral part of the "Maryland State Capital and Operating Budget," published in three volumes.

The *Capital Projects Fiscal Year 1976*, contained herein, is a concise portrayal of the capital projects contained in the aforementioned publication. These projects, along with *Departmental Projections of Capital Needs For The Five Year Fiscal Period 1976-1980*, and *Capital Improvements Authorized By General Assembly 1961 Through 1974* have been consolidated in a new publication whose entitlement includes these designations.

The capital improvement programs/budgeting procedure has been thoroughly formalized and is continually monitored to implement innovations. It includes the preparation and distribution of detailed instructions and project submittal forms, application of space criteria, departmental hearings and maintenance of close liaison with all State agencies and institutions to thoroughly understand and evaluate programs and facility needs. Economic relationships are established between agencies' desires and needs by technical reviews of programs and master plans. Late last year, the Legislative Council approved a recommendation by the House Committee on Appropriations that each principal department of the State Government prepare by November 1, 1974, a long-range and short-range plan. The Governor, who endorsed this action from its inception, has "directed the Departments of Budget and Fiscal Planning and State Planning, according to their mandated responsibilities, to jointly coordinate agency efforts and to provide the necessary guidance in the development and review of the initial plans. They will cooperate as well in developing and implementing the coordinated framework for continuous planning and budgeting." This is referred to as the "Executive Planning Process". Implementation of these reviews has been undertaken with joint inputs by the Comprehensive State Planning and Capital Improvement Programs Divisions. Their determinations will be later verified for conformance. To facilitate close coordination with the legislature, members of the Joint Subcommittee on the Capital Budget of the Legislative Council participate in the on-site inspection trips and the annual departmental hearings.

Capital outlays in Maryland, excepting transportation facilities which are supported by the Consolidated Transportation Bond Program and some other projects supported by revenue bonds, are financed primarily through issuance of general obligation bonds which pledge the full faith and credit of the State. These general obligation bonds, by constitutional provision, must be amortized within a fifteen-year period and they are fully secured by the State property tax. It should be noted in this regard that a constitutional amendment, Chapter 372, Laws of Maryland 1972, passed by the General Assembly and ratified in the General Election on November 7, 1972, augmented the State property tax provision. The amendment does not change the conditions but adds that the annual tax shall not be collected if sufficient funds to pay the principal and interest of the debt are appropriated for this purpose in the annual State budget. This provision, doubtlessly, will bolster the significant fact that for many years the State of Maryland has continuously maintained a triple "A" rating on its general obligation bonds.

Essential capital needs must be provided; however, it is of utmost importance that such outlays, whether through bond funds or provided for in the annual State budget, be held within safe limits so as to maintain the State's long standing triple "A" credit rating. In past years when fiscally permissible, certain categories of projects have been funded from general fund revenues; e.g., all capital projects costing \$100,000 or less, all equipment items and planning funds. However, because of the general economic situation during fiscal 1972, the financial demands of fiscal 1973, the anticipated economic downturn as a result of the "energy crisis" during the latter part of fiscal 1974 and early fiscal 1975, general funds were not available. Considering the dislocation of the economy in the latter part of fiscal 1975 and its anticipated impacts, correlated with the undetermined effects of Federal Revenue Sharing and its impingement upon the State, general funds for these purposes are unlikely to be available.

### Legal Requirements and Directives

1. Each construction appropriation request submitted to the General Assembly for a permanent or long-time construction project must be accompanied with preliminary plans and specifications (Art. 15A, Sec. 10, Annotated Code)
2. No land shall be acquired for any State park which is in excess of the number of acres approved by the General Assembly for this park. The approval of the General Assembly shall be required for any revisions to the Maryland Outdoor Recreation and Open Space Plan prior to the initiation of any action to obtain additional land for any State park. (Art. 66C, Sec. 344B, Annotated Code of Maryland)
3. A project to be classified as a capital improvement shall have a useful life expectancy at least equal to the life of the bonds by which it is financed. (Art. 78A, Sec. 2, Annotated Code of Maryland)
4. Monies derived from the sale of State construction bonds shall be used only for capital improvements and for no other purpose. (Art. 78A, Sec. 2, Annotated Code of Maryland)
5. Unexpended funds remaining after a project is completed and accepted shall be applied to the reduction of the outstanding indebtedness of the State within one year after the date of final acceptance of the project by the State. (Art. 78A, Sec. 3, Annotated Code of Maryland)
6. State secretariats, departments and agencies shall transmit to the Secretary of State Planning a statement of all capital projects proposed to be undertaken for study, advice and recommendation by the Department of State Planning for consideration as an inclusion in the capital program of the State. Such secretariat, department or agency shall also, upon request, submit such information and data to the Department of State Planning and the Department of Budget and Fiscal Planning as these agencies may require in the preparation of the program. The Department of State Planning shall receive the assistance of the Department of Budget and Fiscal Planning in connection with the preparation of the annual capital budget. (Art. 88C, Sec. 6, Annotated Code of Maryland)
7. The Governor shall provide in his annual budget a sum sufficient to establish a Revolving Preliminary Planning Fund under the jurisdiction of the Board of Public Works. For any project which is a part of the capital improvement program established pursuant to Section 6, funds may be made available upon recommendation of the Department of State Planning with the approval of the Board of Public Works, for preliminary plans, studies, design and outline specifications from the Revolving Preliminary Planning Fund. Such sums advanced shall be reimbursed to the Revolving Preliminary Planning Fund with the approval of the Board of Public Works out of the annual general construction loan, or from any other special loan fund separately authorized by the General Assembly or from general funds. (Art. 88C, Sec. 7, Annotated Code of Maryland)
8. All requests by State agencies for capital projects shall be submitted to the Department of State Planning before July 1 of the fiscal year prior to the fiscal year in which they are to be commenced unless the requesting department declares the project to be an emergency. (Art. 88C, Sec. 10, Annotated Code of Maryland)
9. No appropriations shall be authorized for preliminary funds unless the agency in question has submitted to the Department a program describing in detail the purpose of the project for which funds are being requested. (Art. 88C, Sec. 10, Annotated Code of Maryland)
10. No changes shall be permitted in any project for which funds are requested after the preliminary plan has been completed and approved except upon the approval of the Secretary of the Department of State Planning and the Secretary of the Department of General Services. (Art. 88C, Sec. 10, Annotated Code of Maryland)
11. All requests by State agencies for capital projects shall be accompanied with a detail listing of all expenditures proposed for capital improvements which will be funded from non-budgeted revenues or from grants of any kind. (Art. 88C, Sec. 10(d), Annotated Code of Maryland)
12. All State agencies shall notify the Department of State Planning of any real property which is excess to the needs of the State agency, or of any substantial change of any real property owned by the State. The Department of State Planning shall examine the proper disposition of such property, ascertain the interest, if any, of State agencies and local governments in such property, and shall make appropriate recommendations to the using agency and to the Board of Public Works. (Art. 88C, Sec. 12, Annotated Code of Maryland)
13. No work shall be started on any project without satisfactory assurances to the Board of Public Works that the project can be completed within the funds authorized. (A provision included in each General Construction Loan Act)
14. If a project has not been contracted for within two (2) years from the effective date of the General Construction Loan Act, then such project shall be deemed to have been abandoned. (Chapter 229, Laws of Maryland 1972, carries provisions of Sec. 10 of Chapter 435 of the Acts of 1968, as amended by Chapter 512 of the Acts of 1970 relating to certain construction projects contained in the General Construction Loan Act of 1968)
15. Payment of State Debt. To provide that the annual tax required to be levied to pay the principal and interest on State debt authorized by the General Assembly is not levied if sufficient funds for the debt are appropriated in the annual State budget. (Amendment to Sec. 34, Art. III, Constitution of Maryland, ratified by the voters, November 7, 1972)

In addition to the foregoing specific legislative requirements, other directives have been issued which bear directly upon procedures and policies concerning budgeting and programming. They include:

1. A directive of the Governor specifies that members of the secretariat and other heads of all State departments and agencies shall submit their capital budget requests to the Department of State Planning on or before July 1 of the new fiscal year. Each State department and agency shall reduce their supplemental requests to those projects deemed to be an emergency at the time of submission or which adversely affect the health and welfare of the citizenry of the State of Maryland, and which, by their very nature, could not be included by the aforementioned deadline. These specific requests must be submitted to the Governor through the Department of State Planning, for their detailed evaluation prior to his approval.  
All departments shall continue to submit their proposed capital improvement projects constituting their five-year program.
2. Toward the objective of strengthening short-range and long-range programming and budgeting, the Executive Planning Process has been initiated as indicated in previous text. Impetus will be given by the operating departments to permit:
  - (a) periodic review of their short-range (5 years) and long-range (10 and 20 years) programs.
  - (b) specific assignment of responsibility for such short-range and long-range programming and budgeting within their agency.
3. Declaration of legislative intent:
  - (a) items which properly belong in the operating budget of the State shall not be included in the annual capital budget, especially those as related to repair and maintenance work, and minor equipment items. (See Classification and Code of Objects of Expenditures, Budget Bureau, Department of Budget and Fiscal Planning)
  - (b) when an appropriation has been made for the preparation of preliminary plans and specifications for a capital project, such plans shall be in the hands of the Department of State Planning for at least six months before that agency is authorized to recommend inclusion of construction funds for the project in a construction loan.
  - (c) disapproval is expressed by the Finance Committees of the General Assembly of action by members of the secretariat and other heads seeking to by-pass the authority of the Department of State Planning by bringing rejected, deferred or unreviewed projects directly to the Finance Committees in a belated effort to have them included in the capital budget under consideration.
  - (d) bring into perspective the near term and future goals and supportive objectives through increased emphasis to short-range and long-range planning through submittal of programs which shall be updated annually.

To assist the State departments and institutions in the development of their annual capital budget, projections of capital needs for the five-year period, the Department of State Planning has issued and distributed to all departments a revised series of Planning Instruction, issued July 1, 1971, which spell out procedure and include sample forms for the preparation and submission of annual capital project requests and five-year projections of capital needs. Relative to preparation of short-range (five-year) and long-range (ten/twenty year) plans mandated by the Legislative and Executive branches of government, a "Manual For The Executive Planning Process" is currently being developed to facilitate EPP for Maryland State Government. Included therein under the Department of State Planning Plan Review is an inclusion stressing, appropriate to the Capital Improvement Programs Division's specific review, "Quantity and quality of information submitted in support of capital requirements section of plan should be compatible with previously distributed guidelines #6 and #7 in Instructions For The Preparation And Submission of Capital Project Requests" issued by the Department of State Planning.

## **Capital Budgeting and Program Development**

During the preparation of the 1976 Fiscal Year Capital Budget, the Department of State Planning reviewed more than 300 individual projects submitted by some 56 major State agencies and institutions including those within the twelve established secretariats. The estimated cost of these proposed projects approximates \$234,321,200. Individual project requests range from \$2,000 to \$19,635,000.

All projects requested for the 1976 Fiscal Year Capital Budget were designated by the departments as urgently needed and assigned priority ratings to serve as helpful guides in the screening process. Those projects which relate to health, safety and welfare of the people are given high priority for subsequent recommendation to the Legislature. Preparation of a capital budget that will fulfill departments needs without undue sacrifice or impairment of functions is a difficult task. Also, an additional consideration is the responsibility of holding new debt formation within sound fiscal parameters.

This report includes a tabulation of all capital improvements projects, other than highways, mass transit, port and airport facilities funded through the Consolidated Transportation Trust Fund of the Maryland Department of Transportation. Also shown are the non-State-owned assets as well as other projects separately funded from the annual General Construction Loan, which various State agencies and institutions propose be undertaken during the five-year period, 1976-1980.

The compilation of capital projects, presented in Part III of this report, provides a longer range perspective as to future capital needs and the estimated costs of financing required.

Included herein is a Management Calendar, Capital Budget, portraying an overview of the cyclical nature of most activities of the Capital Improvement Programs Division, Department of State Planning.

## Magnitude of Past and Projected Capital Needs and Basic Fiscal Data

During the 14-year period, 1961-1974, the General Assembly has authorized outlays aggregating \$2,534,481,558 exclusive of those projects funded through the Maryland Department of Transportation's Transportation Trust Fund; e.g., highway construction, certain mass transit, port and aviation facilities. Of the aforementioned sum, \$961,983,385 was authorized for various State-owned capital assets—Higher and Special Education, \$439,239,635; Transportation (prior to the Transportation Trust Fund), \$153,476,200; General Control (includes the Annapolis and Baltimore complexes), \$122,487,900; Health, Hospitals, Mental Retardation and Juvenile Services facilities, \$111,553,600; Natural Resources and Recreation, \$74,882,100; Public Safety and Correctional Services, \$53,465,050; and Economic and Community Development, \$6,878,900. The remaining \$1,572,498,173 was authorized as direct grants for non-State-owned assets, largely to match local and federal funds; for example, Higher and Special Education, \$117,327,900 and Public Education, \$1,007,000,000, etc. A more detailed presentation is provided in Part VI B under "Capital Improvements Authorized By General Assembly 1961 Through 1974". The amortization costs (interest and repayment of principal) of these loans is borne by the State.

During the 1974 legislative session, funds authorized for State-owned capital assets increased by \$104,202,100 whereas authorized appropriations for non-State-owned capital assets increased \$320,625,000. Included in the latter figure is \$212,000,000 attributable to the State Public School Construction and Capital Improvement Loan of 1974 and \$50,000,000 associated with the Water Quality Loan of 1974. The State subdivisions' proposed requests for the six-year (fiscal 1976-1981 inclusive) public school construction program approximate \$1.69 billion. Funding of the Public School Construction Program and other non-State-owned projects is generally separate from the regular capital budget of the State agencies and institutions, the latter being financed through the General Construction Loan Act and General funds appropriations. The residual balance of the \$320,625,000 is primarily attributed to loans encompassing the "Constellation," Lyric Theater renovation, Hearing and Speech Agency, Community Mental Health Center Components and Mental Retardation Facilities, Maryland Academy of Sciences, Provident Hospital, Community Colleges, Maryland Housing Fund, Prince George's and Montgomery Counties' Detention Centers, Baltimore Regional Red Cross, Home Financing, Resource Recovery and the Baltimore City Zoo.

The impetus to provide new and expanded programs and services outside the State's capital budget needs careful monitoring. This involves the issuance of State bonds to provide direct grants in some cases, and in others, the use of the State's credit to finance non-State-owned facilities. Consideration is being given to expanded utilization of special revenue sources to provide for some capital facilities rather than increased State property tax assessment; e.g., District Court construction amortized by court fees. In the three-year period 1972-1974 inclusive, State bonds totaling \$1,026,980,000 were authorized by the General Assembly for the construction of non-State-owned facilities. Of this amount \$93,000,000 represents use of the State's credit and is repayable. The remaining \$933,980,000 represents non-repayable grants. To effectively monitor all these bond authorizations and maintain a complementary perspective on the State's General Construction Loan Act, an ongoing review for their respective evaluations has been implemented. This procedure is fully supported by the Office of the Governor, the Joint Budget and Audit Committee of the Legislative Council, the Comptroller's Office, the Department of Budget and Fiscal Planning, the Department of General Services, and the Department of State Planning. All proposals of bond bills involving the authorization of State general obligation bonds, their review, evaluation and recommendation are forwarded to the Governor and the pertinent committee of the General Assembly.

The following tabulation summarizes for the past five years the projected five-year capital needs submitted by the various State agencies and institutions as well as the annual capital budget requests and the annual capital appropriations (General Construction Loan Acts) authorized by the General Assembly:

Fiscal Year	Five-Year Capital Program Submitted By Departments	Projects Requested For Annual Capital Budgets	Annual Capital Budget Appropriations Authorized By The General Assembly		
			Bond Funds	General Funds	Total
1975	\$568,254,900	\$173,055,700	\$ 92,202,100	.....	\$ 92,202,100
1974	626,393,600	157,629,300	108,564,900	.....	108,564,900
1973	583,347,900	181,621,600	95,430,500	.....	95,430,500
1972	453,516,000	150,825,500	104,703,200	.....	104,703,200
1971	387,000,000	121,697,600	58,963,800	\$9,799,000	68,762,800

State agencies and institutions submitted requests as urgently needed for fiscal year 1976 totaling \$234,321,200. The recommended fiscal year 1976 capital budget totals \$83,228,500. Excluded from the above figures are the proposed projects associated with the Public School Construction Program for fiscal year 1976 which are to be financed through a separate bond bill. Also not yet decided are bonding requests which will be submitted to the General Assembly covering Program Open Space, Savage River Bridge, Community Colleges, Community Mental Health Center Components and Mental Retardation facilities, Nursing Homes, Housing Loans, and Water Quality.

The estimated five-year General Construction Loan capital needs projection total of \$682,509,000 indicates an average annual rate of capital outlay of \$136,501,800. Last year, this amount aggregated \$113,650,980. Five years ago, the average annual proposed capital expenditures approximated \$77,400,000. Although increasing enrollments of

higher education are at a decreasing rate, expansion of the concept of community oriented facilities in the areas of health, hospitals, juvenile services and correction, the response to governmental needs as evidenced by the Annapolis and Baltimore complexes, and the continuing impact of inflationary factors, portray important elements in the relatively high sustained average annual estimated requirements. It should be noted that during the five years 1969-1974, Maryland's population increased approximately 6.4%.

#### Basic Fiscal Data\*

The data presented in this section are useful in evaluating the State's fiscal position. It should be remembered that in referring herein to the State debt, the figures are exclusive of highway obligations which are serviced entirely by the dedicated highway use taxes and toll revenues. Also, certain capital expenditures funded through the Maryland Department of Transportation Consolidated Transportation Trust Fund have been similarly excluded.

As of June 30, 1974, State bonds outstanding aggregated \$1,120,991,000.00. As of the same date, bonds "authorized but unissued" totalled \$1,490,778,383.62. Thus, at the close of the 1974 fiscal year, the total State debt authorized amounted to \$2,611,769,383.62. It should be carefully noted that the State debt continues to be authorized at a much faster pace than is being issued, retired, or cancelled.

Included in the "authorized but unissued" figures are sizable loans for State Public School Construction and Capital Improvements, Maryland Port Administration, Outdoor Recreation Land Loans, State Road's Administration, Sanitary Facilities, Water Quality, Dredging Spoil, Area Vocational School Construction and Maryland Housing Fund Loans.

The total "authorized but unissued bonds" as of June 30, 1974, increased by 19% as compared to the amount last year and are as follows:

Loan	Date	Amount
General Construction Loan . . . . .	1964 . . . . .	\$ 335,764.26
General Public Junior or Community College Construction Loan . . . . .	1964 . . . . .	4,802.01
General Construction Loan . . . . .	1965 . . . . .	228,342.42

Total—Authorized but Unissued Bonds as of June 30, 1974 . . . . . \$1,490,778,383.62

Of the \$1,490,778,383.62 bonds authorized but unissued \$462,959,380.22 or 32 per cent represent appropriations for State-owned projects. The remaining 68 per cent is for various local public and private facilities including schools, community and private colleges, water and sewerage projects, mine reclamation and cultural undertakings.

During the 1974 session of the General Assembly, total bonds authorized to finance capital outlays aggregated \$424,827,100.00 of this sum, \$320,625,000.00 in bonds were authorized for non-State-owned improvements; \$434,564,900.00 in bonds were so allocated in 1973; \$371,175,000.00 in 1972, and \$181,025,000.00 in 1971.

The table shown below reflects the growth in the State's outstanding debt during the past five years, both in total and excluding the loans not supported by the State property tax, i.e., those loans outstanding as of June 30, 1974 totalled \$557,663,000.00 and account for 50% of the total outstanding debt.

Ending June	Total Debt Outstanding	Increase Since 1969 Fiscal Year	Per Cent Increase	Debt Outstanding Excluding Loans Not Supported By State Property Tax	Increase Since 1969 Fiscal Year	Per Cent Increase	Per Cent of Total
1974	\$1,120,991,000	\$558,810,000	99	\$563,334,000	\$315,167,000	127	50
1969	562,181,000			248,167,000			44

The above table discloses that the total State debt outstanding as well as the debt incurred that is supported by the State property tax, have each increased during the past five years by 99% and 127% respectively or about 20%

\* These loans are not supported by the State's property tax.

† These loans are not supported by the State's property tax. Payment of principal and interest on bonds issued by the State prior to January 1, 1958, is made by the Counties and Baltimore City to the State from local taxes levied. Payment of principal and interest on bonds issued by the State on or after January 1, 1958 is made through deductions by the Comptroller of the Treasury from funds due said Counties and Baltimore City under the applicable provisions of State Law relating to the Income Tax, the Tax on Racing, the Recordation Tax, the Tax on Amusements, the License Tax and the School Building Construction Aid Program. These payments are to be made within fourteen years from the date of the issuance of the Bond Certificates. Effective June 1, 1971, legislation was passed by the General Assembly whereby the State assumed the costs of all future public school construction, and also provided that the State would assume the costs of principal and interest payments for public school construction loans incurred by the Counties and Baltimore City prior to June 30, 1967. Funding for these future costs as well as principal and interest costs on the State Public School Loans passed by the legislature in 1971, 1972, 1973 and 1974 is provided through General Fund Appropriations made to the Department of Education in the School Building Construction Aid Program and transferred to the Annuity Bond Fund Account. If there is not enough revenue from sources indicated above to cover principal and interest, the difference must be included by the State in Real and Personal Property Tax levy.

and 25% respectively per year. In juxtaposition thereto the assessable base during the same period has steadily increased from \$17,050,440,000 for taxable year 1970 to \$24,734,264,000 for the taxable year 1975 at an average annual rate of approximately 9%. Currently the ratio of total State debt to the assessable base is 4.53%.

During the 1974 fiscal year, there were three sales of State general obligation bonds totalling \$162,150,000. The net interest costs on the bonds increased from 4.29739% in February 1972 to 4.6019% in February 1974. The latest two bond sales in September 1974 and November 1974 reflected rates of 5.8884% and 5.6448% respectively.

The following tabulation shows the variation in the net interest costs to the State on each sales of bonds between April 1970 and November 1974:

<u>Bond Sales and Interest Cost</u>	
Date of Bond Sale	Net Interest Cost
November 1974.....	5.6448%
September 1974.....	5.8884%
February 1974.....	4.6019%
November 1973.....	4.6485%
August 1973.....	4.93136%
March 1973.....	4.7376%
July 1972.....	4.5255%
February 1972.....	4.29739%
October 1971.....	4.1110%
July 1971.....	4.97257%
March 1971.....	4.1964%
December 1970.....	4.3868%
October 1970.....	5.2872%
July 1970.....	6.028%
April 1970.....	5.232%

Other pertinent fiscal data are reported below:

<u>Assessable Base and State Property Tax Rate</u>					
Taxable Year	Fiscal Year	Assessable Base	Per Cent Annual Increase	Per Cent Increase Since 1969 Fiscal Year	State Property Tax Rate Per \$100 of Assessed Valuation
1975	1975	\$24,734,264,000	3.6	45.1	21.00c
1974	1974	23,875,913,000	10.7		21.00c

1973	51,017,000	27,910,000
1972	48,696,000	29,518,000
1971	42,226,000	20,092,000
1970	39,166,000	17,511,013

# Disbursement for Debt Service

Fiscal Year Ending June 30	Redemption and Interest On Total Debt Outstanding	Debt Service Charges Being Repaid the State	Redemption and Interest Excluding Public School Construction and Other Loans Not Supported By State Property Tax
1975	\$120,601,590	\$62,303,182	\$58,298,408
1974	98,028,264	43,122,183	54,906,081
1973	86,719,339	39,656,956	47,062,443
1972	80,096,974	30,759,641	49,337,333
1971	62,495,891	28,932,503	33,563,383
1970	58,277,133	24,954,481	33,322,652

## Highlights:

The fiscal data reported herein disclose the following pertinent facts:

	Fiscal Year June 30, 1974	Fiscal Year June 30, 1973		
1. Total State Debt Outstanding . . . . .	\$1,120,991,000	\$1,018,664,000		
Supported by State Property Tax. . . . .	\$563,334,000	\$471,877,260		
Not Supported by State Property Tax.	557,657,000	546,786,740		
Total Bonds "Authorized but Unissued" . . . . .	1,490,778,384	1,256,159,236		
Supported by State Property Tax. . . . .	773,577,324	660,858,176		
Not Supported by State Property Tax.	717,201,060	595,301,060		
Total State Debt Already Authorized	\$2,611,769,384	\$2,274,823,236		
2. Total General Obligation Bonds Authorized by General Assembly (1974-1972)	Non-Repayable Grants	State Facilities	Use of State's Credit (Repayable)	
\$1,359,177,500	\$933,980,000	\$332,197,500	\$93,000,000	
3. Outstanding Total State Debt	Fiscal Year 1974	Fiscal Year 1969	Increase	Per cent Increase
	\$1,120,991,000	\$562,181,000	\$558,810,000	99
(a) Supported by State Property Tax	563,334,000	248,167,000	315,167,000	127
(b) Not Supported by State Property Tax	557,657,000	314,014,000	243,643,000	78

4. Bonds Authorized but Unissued—June 30, 1974

Total	Non-State-Owned Facilities	Per Cent	State-Owned Facilities	Per Cent
\$1,490,778,384	\$1,013,769,000	68.0	\$477,009,384	32.0

The figure of \$1,013,769,000 for Non-State-Owned facilities represents an increase of 17% over the previous year. The State's assessable base continues its steady growth having advanced from \$17,050,440,000 for taxable year 1970 to \$24,734,264,000 for the current taxable year 1975. The increase has been, at an average rate, approximately nine per cent per year. Since 1970 taxable year, the assessable base has increased 45.1 per cent. This steady growth in the assessable base indicates the sound growth of the overall economy of the State.

The ratio of debt outstanding to the assessable base as of June 30, 1974 was 4.53. During the last five years this ratio has increased from 3.07 per cent in 1970 to 4.53 per cent in 1974.

5. Bond Retirements and Disbursements for Debt Service:

During the 1975 fiscal year, State general obligation bonds in the amount of \$72,472,000 will be retired, of which \$38,750,000 represents bondsserviced by the State property tax. Disbursements for debt service (redemptions and interest) during this period will total \$120,601,590 of this amount \$62,303,182 represents debt service charges being repaid the State.

The fiscal position of the State remains healthy as indicated by the continuance of the triple "A" rating assigned to the State's latest bond issues.

In conclusion, to effectively fulfill the ever increasing needs for State-Owned facilities and to insure a measure of stabilization in the State's structural indebtedness, careful attention should be given to (1) the total bonds "Issued and Outstanding" (State and non-State-Owned facilities), (2) the magnitude of total bonds "Authorized but Unissued" (potential debt), (3) the issuance of bonds to provide direct grants to non-State-owned facilities, (4) further extension of the use of the State's credit to local subdivisions and/or sanitary districts and medical facilities and, (5) maximum use of pay-as-you-go funding as an alternative to general obligation bond financing.

## PART II

### LISTING OF CAPITAL IMPROVEMENTS INCLUDED IN THE CAPITAL BUDGET, FISCAL YEAR 1976

The 1976 Capital Budget consists of 112 improvement projects and 16 supplements to previously authorized projects. It totals \$83,228,500. Twenty-three of the projects and supplements, each costing in excess of \$1,000,000, account for about \$64,000,000 of the budget. By virtue of this capital improvements program, the State seeks to provide essential facilities where none previously existed and to upgrade existing facilities in line with accepted standards.

Some of the major areas of improvements include: a continuation of the Community Correction Program by construction of one center, supplementing the construction funds for two centers and the design of two additional centers; an expansion of services to the emotionally disturbed children and adolescents by construction of a new institute and increasing the day care capability of another; the continued development of recreational facilities in Maryland State Parks system; improvements in patient care and comforts in Maryland State Hospital Centers; construction of a new mental retardation center; provision for group homes for the mentally retarded and for the youth who are the concern of the Juvenile Services Administration; alteration of Boys' Village to a secure institution for juvenile offenders; design of the first multi-service center; acquisition of land for and design of a new district court building; and continuation of the program to provide outstanding higher educational facilities by the design, construction or renovation of 23 buildings.

#### Capital Improvements Summary By Department And By Major Function

Board of Public Works .....	\$ 1,740,000
Military Department.....	733,000
Department of Natural Resources .....	5,594,000
Department of Health and Mental Hygiene:	
Aged and Chronically Ill Services Administration .....	33,500
Mental Hygiene Administration.....	13,845,000
Mental Retardation Administration.....	3,688,100
Juvenile Services Administration .....	4,069,700
Department of Public Safety and Correctional Services:	
Division of Correction .....	12,345,600
Patuxent Institution .....	151,500
Maryland State Police.....	1,538,000
University of Maryland.....	20,488,800
State Colleges .....	14,063,500
St. Mary's College of Maryland .....	4,129,800
Maryland School for the Deaf .....	285,000
Department of Economic and Community Development:	
Maryland Historical Trust .....	523,000
<b>GRAND TOTAL .....</b>	<b>\$83,228,500</b>

By major functions, the proposed 1976 Capital Budget is divided as follows:

	Amount	Per Cent of Total
General Control.....	\$ 2,473,000	3.0
Natural Resources and Recreation.....	5,594,000	6.7
Health, Hospitals and Juvenile Services .....	21,636,300	26.0
Public Safety and Correctional Services .....	14,035,100	16.9
Higher and Special Education .....	38,967,100	46.8
Economic and Community Development .....	523,000	.6
<b>TOTAL.....</b>	<b>\$83,228,500</b>	<b>100.0%</b>

**Impact of the Capital Improvements Program on Future Operating Budgets**

In many cases, the projects under consideration will increase future operating expenses. Departments in the State are required to include an estimate of these increased costs in their project submissions. A summary of this impact is as follows:

Estimated increase in Salaries and Wages . . . . .	\$ 9,116,400
Estimated increase in Other Operating Expenses . . . . .	3,127,560
Estimated cost of Initial Supplies and Equipment . . . . .	<u>4,844,400</u>
TOTAL . . . . .	\$17,088,360

It should be noted that this increase will not occur in one year, but will be phased incrementally as each project becomes operational.

# LISTING OF CAPITAL IMPROVEMENT PROJECTS

Board of Public Works		
Annapolis Office Complex		
Supplement detailed planning for construction of two State Office Buildings . . . .	\$	90,000
Baltimore Office Complex		
Supplement the construction of an addition to the Food Service Area . . . . .		530,000
Replace cold and hot water lines at 2100 Guilford Avenue . . . . .		50,000
General		
State share for site acquisition and design by the Queen Anne's County Government of a Multi-Service Center, Centreville . . . . .		280,000
Site acquisition and design of a District Court Building, Baltimore . . . . .		790,000
Total—Board of Public Works . . . . .		<u>\$1,740,000</u>
Military Department		
Equipment for Denton Armory . . . . .		33,000
Contingent upon federal funds being available, the construction of Hagerstown Armory . . . . .		540,000
Acquisition of land (approximately 10 acres) and preparation of detailed plans for Frederick Armory . . . . .		160,000
Total—Military Department . . . . .		<u>733,000</u>
Department of Natural Resources		
Fisheries Administration		
Design of initial road development, parking areas and boat launching ramps, St. Mary's Fishing Lake . . . . .		35,000
Design and construction of Visitor's Center, fish display ponds, entrance road, parking area, utilities and site improvements, Joseph Manning Warm Water Fish Hatchery . . . . .		272,000
Park Service Administration		
Design and construction of contact station, park office, visitor's center, utilities and site improvements, Cedarville State Park . . . . .		142,000
Construction of swimming pool, bath house, roads, parking area, athletic field, utilities, water, sewer system and site improvements, Dan's Mountain State Park . .		500,000
Detailed planning to construct a day-use facility, Deep Creek State Park . . . . .		15,000
Preliminary planning for construction of addition to office, storage building, service yard and utilities—Black Hill Ranger Station, Elk Neck State Forest . . . . .		25,000
Construction of concession building—Herrington Manor State Park . . . . .		60,000
Pave gravel road to cabin area—Herrington Manor State Park . . . . .		15,000
Design and construct shore erosion measures—Jane's Island State Park . . . . .		118,000
Pave gravel road within park area—Jane's Island State Park . . . . .		36,000
Construct support buildings in Hollofield group picnic area—Patapsco State Park		730,000
Construct a registration—control building, camp store and recreation building, shower buildings, and camper's beach—Rocky Gap State Park . . . . .		1,677,000
Renovate the Mount Airy Mansion—Rosaryville State Park . . . . .		80,000
Construct day-use picnic area—Seneca Creek State Park . . . . .		1,844,000
Construct an earth dam to create a 22 acre lake in day-use area—Tuckahoe State Park . . . . .		45,000
Total—Department of Natural Resources . . . . .		<u>5,594,000</u>
Department of Health and Mental Hygiene		
Aged and Chronically Ill Services Administration		
Mount Wilson Center		
Preliminary planning to install 16 additional toilets and alter existing toilets on the 3rd and 4th floors . . . . .		5,500
Western Maryland Center		
Preliminary planning to renovate the center core of five wards . . . . .		28,000

<b>Mental Hygiene Administration</b>	
<b>Headquarters</b>	
Construction of the Regional Institute for Children and Adolescents—Montgomery County .....	\$7,440,000
<b>Regional Institute for Children and Adolescents—Baltimore</b>	
Construction of an Education and Community Activities Building .....	3,797,000
<b>Crownsville Hospital Center</b>	
Installation of emergency generator .....	170,000
<b>Eastern Shore Hospital Center</b>	
Equipment for addition to the Medical Surgical Building .....	154,500
<b>Springfield Hospital Center</b>	
Supplement the installation of new generator and installation of all electric feeders underground .....	948,100
Phase I improvements to steam and water lines .....	577,700
Detailed planning to install dust collectors .....	10,000
Detailed planning to air condition the employees' cafeteria .....	10,000
<b>Spring Grove Hospital Center</b>	
Replace outdoor electrical system (Phase II) .....	692,700
Preliminary planning to renovate Brick Cottages 1, 2, 3 and 4 .....	25,000
Detailed planning to install dust collectors .....	20,000
<b>Mental Retardation Administration</b>	
<b>Headquarters</b>	
Purchase and renovate or construct 3 group homes .....	373,500
Construct Western Maryland Retardation Center II—Cumberland .....	3,070,000
<b>Rosewood Hospital Center</b>	
Install emergency generators .....	184,600
Supplement the detailed planning to renovate Johns, Cook and Mandel Buildings .....	35,000
Raze Holland Cottage .....	25,000
<b>Juvenile Services Administration</b>	
<b>Headquarters</b>	
Purchase and renovate or construct five youth residences .....	527,200
Purchase Maryland Youth Residence Center—Baltimore .....	303,000
<b>Boys' Village of Maryland</b>	
Alter 2 cottages for a detention center .....	347,300
Alter to a secure institution for juvenile offenders .....	2,500,000
<b>Montrose School</b>	
Replace electric feeders (Phase I) .....	240,000
Detailed planning for renovation of Gardner Building .....	33,000
<b>Boys' Forestry Camps</b>	
Detailed planning for new dormitory and kitchen at Lonaconing Camp .....	35,000
<b>Maryland Training School for Boys</b>	
Equipment for 4 cottages on Senior Campus .....	24,000
Equipment for 7 detention cottages on Junior Campus .....	60,200
Total—Department of Health and Mental Hygiene .....	<u>\$21,636,300</u>
<b>Department of Public Safety and Correctional Services</b>	
<b>Division of Correction</b>	
<b>Headquarters</b>	
To supplement the detailed planning funds for Reception and Diagnostic Center Building .....	500,000
Construction of Baltimore City Community Correctional Center #2 .....	3,820,000

Grand Total. . . . .		\$83,228,500

### **PART III**

#### **DEPARTMENTAL CAPITAL NEEDS PROPOSED FOR FIVE-YEAR PERIOD 1976-1980**

This section lists all capital needs, other than those associated with the Department of Transportation or financed through special bond authorizations, which the various State departments and institutions requested be undertaken during the five-year period, fiscal 1976-1980.

The grand total of these projects requested in the calendar year 1974 for inclusion in the State's five-year capital program is \$682,509,000. This represents an average annual capital outlay of \$136,501,800. Individual project requests for fiscal year 1976 ranged in scope from a low of \$2,000 to a high of \$19,635,000.

The tabulation and summary which follow serve to give a longer range perspective as to future capital needs and the overall level of required capital outlay by the State. It is important to note that none of the projects, other than those recommended in the fiscal 1976 capital budget, have been officially approved. It should be further noted that each principal department of State Government was requested to prepare by November 1, 1974, a long-range and short-range plan. Complete guidelines are currently being prepared and will be available to assist in the full implementation of the planning and budgeting process for Fiscal Year 1977. Such plans, then, will be updated annually. It should be remembered that those projects requested for fiscal 1976 which have been deferred or deleted, for varying reasons, affect the capital needs proposed in the ensuing years. An indication of the number of specific requests are: Fiscal 1976, two hundred ninety-eight (298) projects; Fiscal Year 1977 through 1980, inclusive, four hundred ninety-nine (499) projects or a total five-year request aggregating seven hundred ninety-seven (797) individual projects.

The projects herein listed which are included in the 1975 Capital Budget (Fiscal Year 1976), and which are to be financed with general obligation bond funds, are designated by a dagger(†). The amount recommended to be appropriated for each project may differ from the sums initially requested by the various departments and institutions. Those differences are due primarily to adjustment in project scope, late additions and/or deletions and revised estimated costs. Cost figures represent cost to the State only and do not include Federal funds available or anticipated.

Environmental Assessment Forms have been submitted for appropriate projects. Nonbudgeted funds for capital projects are footnoted.

Where italicized figures are shown, they are for informational purposes only and are not reflected in overall totals.

**SUMMARY OF CAPITAL OUTLAY NEEDS  
FOR THE FIVE YEAR PERIOD FISCAL 1976-1980

## **PART IV**

### **POTENTIAL COMMITMENT OF FUTURE CONSTRUCTION FUNDS CREATED THROUGH APPROPRIATIONS OF PLANNING FUNDS**

Planning funds is a term applied to an appropriation for:

(a) Preliminary Planning Funds—any necessary study including the development of preliminary plans and specifications for a major construction project.

(b) Detailed Plans and Specifications—the preparation of final working drawings which specify in detail the specific design and capacities for a construction project upon which basic bids are submitted.

By law, the preliminary plans and specifications must be available at the time that the General Assembly is requested to appropriate construction funds for a project. The State follows this practice in order to provide for: (1) needed engineering or other preliminary studies; (2) the development of better facility programs and plans; and (3) more accurate project cost estimates—all in the interest of obtaining the best facility for the least cost.

While it does not hold that construction funds will inevitably be provided in the first or second year following the appropriation of planning funds, there does exist a potential commitment of construction funds in the future.

The tabulation herein provided, covering planning funds in prior construction loans, discloses such a potential (based upon the Agency's cost estimate) approximating \$246,359,900. Projects for which planning fund appropriations are proposed in the 1976 Capital Budget will aggregate \$50,368,900 in projected construction costs.

The total estimated costs indicated above are net of anticipated federal funds which are or may become available.

# PART IV-A

## POTENTIAL COMMITMENT OF FUTURE CONSTRUCTION FUNDS CREATED THROUGH APPROPRIATIONS OF PLANNING FUNDS IN PRIOR CONSTRUCTION LOANS

Agency and Project	Date of Loan	Planning Appropriation	Departmental Estimated Project Cost
Relocation of County Road, Crownsville Hospital Center .....	1966	\$ 5,000	\$ 125,000
Maximum Security Institution and/or Reception Center, Department of Correctional Services .....	1967	25,000

	224,300	<b>\$12,033,900</b>

G.C.L. 1973

For the planning and analysis of the present location and construction of a State Office Building; to ascertain the existence, or lack thereof, of a need for such a facility and, if such need be evident, to determine the best location for such a facility with consideration to be given to the Saint Johns Street area, the Arundel Center on Calvert Street, and other available locations in the Annapolis area; to consider whether existing structures should be restored or new construction erected, in either event to be compatible with the historical architectural atmosphere of Annapolis; and if a need for such facility be established, to justify such need to the General Assembly and to submit such plans and analyses through the normal budgetary processes prior to any further action with respect to such facility . . . . .

72,000

**BOARD OF PUBLIC WORKS—(Continued)**  
**STATE OFFICE BUILDINGS—ANNAPOLIS—(Continued)**

For planning and analysis of the proposed location and construction of an "Executive House"; to ascertain the existence, or lack thereof, of a need for such a facility and if such need be evident, to determine the best location for such a facility with consideration to be given to the State Circle areas, Saint Johns Street area, the Arundel Center on Calvert Street, and other available locations in the Annapolis area; to consider particularly in the event the State Circle area is proposed, whether existing structures should be restored or new construction erected, in either event to be compatible with the historical architectural atmosphere of Annapolis; and if a need for such facility be established, to justify such need to the General Assembly and to submit such plans and analyses through the normal budgetary processes prior to any further action with respect to such facility

\$ 45,000

Install electrical and mechanical improvements in the Senate Office Building .....

325,000

Installation of partitions and other alterations to various buildings in the State Office Complex, Annapolis. ....

150,000

State's share of acquisition and construction of a parking structure to be constructed by Anne Arundel County on property bounded by Washington, Clay, and Calvert Streets, Annapolis, Maryland, for the purpose of providing 300 parking spaces more or less to be used and controlled exclusively by the State. Preliminary plans are to be approved by the Board of Public Works upon the recommendation of the Departments of General Services and State Planning. The Board of Public Works may determine the conditions for use of these spaces. The appropriation is contingent upon the execution of an agreement approved by the Board of Public Works between the State and Anne Arundel County granting to the State ownership or the equivalent of 300 parking spaces more or less and providing for a proportionate sharing of the costs of operation and maintenance of the facility. ....

1,000,000

\$1,592,000

**G.C.L. 1974** Design and preparation of detailed plans and specifications for a State Office Building for the Executive Offices, the Department of State Planning, and the Department of Budget and Fiscal Planning, contingent upon fulfillment of the study and analysis pertaining to this facility as set forth on pages 281 and 282 of Chapter 195 of the Acts of 1973 and further contingent upon the approval of the program by the Departments of State Planning and Budget and Fiscal Planning .....

143,000

Design and preparation of detailed plans and specifications for two (2) State Office Buildings for the Department of Agriculture, the Department of Economic and Community Development and other State agencies, contingent upon fulfillment of the study and analysis pertaining to this facility as set forth on page 281 of Chapter 195 of the Acts of 1973 and further contingent upon the approval of the program by the Departments of State Planning and Budget and Fiscal Planning .....

354,000

Study and preparation of preliminary plans and specifications for the expansion of the Legislative and Administrative Data Processing Center, Office of the Comptroller. ....

20,000

517,000

**TOTAL** ..... **\$47,633,400**

		TOTAL . . . . .		\$1,226,800

## Montebello Center

G.F.	1964	Planning and preparation of preliminary plans and specifications for an addition to "A" wing of hospital building to provide office space . . . . .	3,000	
		Preparation of detailed plans and specifications for the expansion of elevator facilities . . . . .	3,500	6,500
G.C.L.	1965	Construction of an office and classroom addition to "A" wing, to include air conditioning of this facility . . . . .	287,100	
		Expansion of elevator facilities . . . . .	80,000	367,100
G.F.	1965	Equipment for office and classroom addition to "A" wing . . . .		5,800
G.F.	1967	Installation of new electrical feeder lines . . . . .	100,000	
		Planning and preparation of preliminary plans and specifications for renovation of Central Core Area . . . . .	5,000 <sup>1</sup>	105,000
G.C.L.	1968	Installation of additional transformer capacity to handle future air conditioning . . . . .	75,000	
		Renovation of Central Core Area of Montbello State Hospital, . . . . .	125,000	200,000
G.C.L.	1969	Installation of fire protection facilities . . . . .	90,000	
		Installation of emergency electric power generating system and emergency water supply system . . . . .	35,000	
		Installation of devices to maintain air pollution standards, including dust collectors; change to use of No. 6 fuel oil; miscellaneous alterations to boiler plant installation; and necessary studies for attaining maximum effectiveness . . . . .	20,600	
		Installation of air conditioning for hospital building <sup>2</sup> . . . . .	575,000	720,600
G.C.L.	1970	To supplement the appropriation for the "Installation of devices to maintain minimum air pollution standards . . ." as shown on page 1000 of the Acts of 1969; Section 8 of Chapter 409 of the Acts of 1969 being hereby modified to the extent that said work may be undertaken upon satisfactory assurances to the Board of Public Works that said project can be completed with the aggregate of funds herein and heretofore appropriated for that purpose . . . . .		23,400
G.F.	1970	Phase 3 of electrical distribution system to include installation of three additional transformers to service old Sydenham Hospital, Administration Building and Nurses Dormitory . . . . .		75,000
G.C.L.	1971	Installation of Fire Protection Sprinkler System for ground floor of hospital . . . . .	71,000	
		Renovation of area for clinical services . . . . .	5,000	
		Widening of Main Entrance Road to the hospital . . . . .	29,000	100,000
G.C.L.	1973	Renovation of Central Core of Ward D-3 . . . . .		69,000
		TOTAL . . . . .		\$1,672,400

## Western Maryland Center

G.F.	1965	Construction of additional parking space (82 cars) . . . . .		16,300
G.C.L.	1969	Installation of emergency water supply system and additional generator fuel capacity . . . . .		13,500

<sup>1</sup> Included in a lump sum appropriation to the Board of Public Works.<sup>2</sup> Repealed and re-enacted by the 1971 Legislative Session for the purpose shown (Chapter 256, Acts of 1971).

# AGING AND CHRONICALLY ILL SERVICES ADMINISTRATION—(Continued)

## Western Maryland Center—(Continued)

G.F.	1970	Installation of second electric feeder line . . . . .	\$ 10,000	
		Construction of new exit road . . . . .	20,000	\$ 30,000
G.C.L.	1972	Design and preparation of detailed plans and specifications for air conditioning of Hospital . . . . .		34,000
G.C.L.	1974	Installation of emergency generator and automatic switching gear . . . . .	80,000	
		Construction of elevator tower and installation of elevator . . .	100,000	
		Installation of air conditioning . . . . .	700,000	880,000
TOTAL . . . . .				\$ 973,800

## Mt. Wilson Center

G.C.L.	1963	Installation of elevator . . . . .		45,000
G.C.L.	1966	State share of cost of extending county water main and installation of new supply line to serve hospital . . . . .		60,000
G.C.L.	1969	Installation of emergency electric power generating system and emergency water supply system . . . . .	55,000	
		Installation of a second electric feeder line, automatic switching and additional transformer capacity . . . . .	95,000	150,000
G.C.L.	1972	Engineering study for replacement of heating system, need for replacement of metal sash windows in Building No. 1, and installation of air conditioning in Buildings No. 1 and No. 2 . . . . .		15,000
G.C.L.	1974	Replacement of heating system and metal sash windows in Building No. 1 and installation of air conditioning in buildings No. 1 and No. 2 . . . . .	1,829,000	
		Installation of dust collectors and associated equipment for the power plant . . . . .	44,000	1,873,000
TOTAL . . . . .				\$2,143,000

## Pine Bluff Center

G.C.L.	1969	Installation of emergency water system and additional fuel capacity . . . . .	4,700	
		Installation of second feeder line and automatic switching . . .	15,000 <sup>1</sup>	19,700
G.F.	1970	Conversion of 2 boilers from No. 5 oil fired to No. 2 oil fired and installation of a 10,000 gallon oil tank . . . . .		6,000
G.C.L.	1971	<i>To supplement the appropriation "Installation of second feeder line . . ." as shown on page 1000 of the Acts of 1969; Section 8 of Chapter 409 of the Acts of 1969 being hereby modified to the extent that said work may begin upon satisfactory assurances to the Board of Public Works that said projects can be completed with the aggregate of the funds herein and heretofore appropriated for that purpose . . . . .</i>		11,500
TOTAL . . . . .				\$ 25,700

## MENTAL HEALTH ADMINISTRATION

<b>G.C.L.</b>	<b>1962</b>	To supplement not less than \$875,000 to be provided by the University of Maryland for the construction of a women's dormitory (500 capacity) and adjoining kitchen and dining hall, including site improvements. This item shall be exempt from the provisions of Section 8 of this Act (equipment to be requested later) . . . . .	\$1,731,000	
		Preparation of detailed plans and specifications for new Fine Arts Building to house the departments of Music, Arts, Speech and Drama . . . . .	130,000	
		Renovation of the third floor of Skinner Building for Microbiology . . . . .	90,000	
		Renovation of the second floor and a portion of the first floor of Woods Hall for Zoology (equipment to be requested later) . . . . .	80,000	
		Equipment for new Infirmary . . . . .	24,500	
		Equipment for Physics Building addition . . . . .	70,000	
		Equipment for new men's dormitory (550 capacity) and adjoining kitchen and dining hall . . . . .	210,000	
		Renovation of Shoemaker Building (equipment to be requested later) . . . . .	117,000	
		Funds for the extension of utility services . . . . .	120,000	
		Renovation of dormitories for men:		
		Construction . . . . .	190,000	
		Site improvements . . . . .	10,000	<b>\$ 2,772,500</b>
<b>G.C.L.</b>	<b>1963</b>	Equipment for new women's dormitory (500 capacity) and adjoining kitchen and dining hall . . . . .	138,000	
		Equipment for renovated Shoemaker Building . . . . .	20,000	
		Equipment for renovated portion of Woods Hall . . . . .	19,200	
		Construction of Arts and Sciences classroom, office and auditorium building (equipment to be requested later) . . . . .	2,350,000	
		To supplement not less than \$871,000 to be provided by the University of Maryland for the construction of a men's dormitory (500 capacity), including site improvements. This item shall be exempt from the provisions of Section 8 of this Act (equipment to be requested later) . . . . .	871,000	
		Construction of a new Education Building, including utilities and site improvements (equipment to be requested later) . . . . .	1,600,000	
		Construction of an addition to H. J. Patterson Hall including utilities and site improvements (equipment to be requested later) . . . . .	950,000	
		<i>Renovation of old Infirmary building for Home Management Center including utilities and site improvements (equipment to be requested later) . . . . .</i>	<i>75,000</i>	
		Central heating plant improvements . . . . .	115,000	
		Funds for the extension of utility services . . . . .	137,000	
		Roads, walks and landscaping for newly developed areas of the campus . . . . .	116,400	<b>6,316,600</b>
<b>G.C.L.</b>	<b>1964</b>	Equipment for Arts and Sciences Classroom, Office and Auditorium Building . . . . .	325,000	
		Equipment for Easton Hall (men's dormitory) . . . . .	110,000	
		Equipment for H. J. Patterson Hall addition . . . . .	200,000	
		Final phase of construction of the Cyclotron structure addition to the Physics Building (equipment to be requested later) . . . . .	960,000	
		To supplement not less than \$875,000 to be provided by the University of Maryland for the construction of a dormitory for 500 students, including site improvements. This item shall be exempt from the provisions of Section 8 of this Act (equipment to be requested later) . . . . .	875,000	
		Extension of utilities for new buildings . . . . .	83,500	
		Construction of roads, walks, parking area and landscaping for new area of campus . . . . .	73,300	<b>2,626,800</b>

# UNIVERSITY OF MARYLAND—(Continued)

## College Park—(Continued)

G.C.L.	1965	Equipment for Elkton Hall Dormitory and second Dining Hall .	\$125,000	
		Equipment for new Education Building . . . . .	115,000	
		Equipment for Physics Building addition . . . . .	80,000	
		Contingent upon and supplementary to federal funds being made available to the University of Maryland for the construction of Mathematics, Chemistry and Lecture Hall additions to the Physical Sciences complex, including partial air conditioning . . . . .	2,288,000	
		Air conditioning selected areas of the Library . . . . .	242,000	
		To supplement not less than \$950,000 to be provided by the University of Maryland for the construction of a dormitory (500 capacity) and adjoining kitchen and dining hall, including site improvements. This item shall be exempt from the provisions of Section 8 of the Act (equipment to be requested later) . . . . .	1,825,000	
		Extension of utilities to new building sites . . . . .	133,000	
		Installation of an additional boiler in the Central Heating plant	325,000	
		Construction of roads, walks and landscaping for new areas of campus . . . . .	80,000	
		Installation of two new 13,000 volt electric feeders to include a metering and switching station . . . . .	200,000	
		To supplement not less than \$35,000 to be provided by the University of Maryland for the construction of an addition to the Home Management Center. This item shall be exempt from the provisions of Section 8 of this Act . . . . .	75,000	\$ 5,488,000
G.C.L.	1966	To supplement the appropriation "for the construction of Mathematics, Chemistry and Lecture Hall additions to the Physical Sciences Complex, including air conditioning" . . . . .	319,000 <sup>1</sup>	
		Equipment for new men's dormitory (528 beds) and adjoining dining hall and kitchen . . . . .	145,000	
		Planning and preparation of detailed plans and specifications for Zoology-Psychology Building . . . . .	218,000	
		Contingent upon and supplementary to federal funds being made available to the University of Maryland for the construction of an Animal Sciences Building, 1st phase . . . . .	1,183,700
